## Quick Install Guide

Version 9.01 Build 105

# PC Protection Plus Quick Install Guide

- **Important!** A valid subscription key and an Internet connection are required to install the software.
- **Important!** This software will automatically uninstall other anti-virus, ad-ware, spyware, and/or firewall software. Please read and follow prompts closely to ensure proper installation of F-Secure SPC and removal of the other software packages.
- **Important!** If F-Secure is installed on a computer with multiple user accounts (such as Windows 7, Windows Vista, Windows XP, or Windows 2000), it must be installed on an account that has administrative rights.

## **The best in breed security suite just got better!**

F-Secure PC Protection Plus provides complete protection against the latest Internet threats, whether known or previously unidentified.

The new F-Secure PC Protection Plus includes advanced Parental Controls and everything needed to protect a computer against threats originating from the Internet: Anti-Virus, Firewall, Anti-Spyware, Anti-phishing, and Anti-spam.

## **Easy Installation**

This guide will assist in the installation of F-Secure, as well as explain various functions and features.
